

HEATING, VENTILATING, AIR CONDITIONING, AIR QUALITY AND ENERGY RECOVERY PRODUCTS

Air Cooled Condensers
Air Handling Units
Airtex Radiant Ceiling Panel
Air Washers
Condensing Units
Convectors
Dehumidifiers
Direct Fired Air Curtains
Direct Fired Make-Up Air Heaters
Energy Recovery Units
Evaporative Coolers
Fan Coil Units
Finned Tube Radiation
Fluid Coolers
Heating, Cooling and/or Ventilating Units
Heat Transfer Coils

Heresite Corrosion Protection
Humidifiers
Indirect Fired Make-up Air Heaters
Indirect Fired HVAC Units
Multizone Units (new & replacement)
Packaged Air Conditioners
Prefabricated Equipment Rooms
QDT Heat Recovery Pipes
Recovery Air - Energy Recovery Wheels
Replacement Units
TRAC "Family of Electronic Controls"
Tri Med UVC and Odor Control Products
TRP Air to Air Heat Exchangers
Unit Heaters
Unit Ventilators
Water Chillers

ENGINEERED AIR FWE SERIES CUSTOM PACKAGED ROOF TOP UNITS

CERTIFIED EFFICIENCY TO MEET/EXCEED ASHRAE 90.1-2010

EngA **ENGINEERED AIR**

If you have an idea - We'll manufacture it!

HEATING :: VENTILATING :: AIR CONDITIONING :: AIR QUALITY :: ENERGY RECOVERY

The Product:

Engineered Air is proud to offer the flexibility of custom built rooftop mechanical cooling equipment that is compliant with current federally mandated efficiency levels. Our equipment has verified EER's & IEER's to meet or exceed ASHRAE 90.1 2010 listings.

The FWE Series mechanical cooling can be coupled with a variety of heating components from electric heat coils, direct to indirect gas fired heaters, or condenser re-heat coils. Additional energy saving components can also be included from Recovery Air heat wheels, QDT heat pipes or Air to Air plate heat exchangers.

Engineered Air is a manufacturer that will build your specific mechanical cooling equipment designs. Contact your local Engineered Air factory direct sales representative with your selections today.

Features:

- ETL/CETL listed.
- Cantilevered compressor & condenser sections eliminates noise transmitted inside curb.
- Coupled indirect fired gas 90%+ efficient furnace.
- Single zone, multi-zone, VAV or make up air.
- Energy Recovery packages.
- Multiple independent compressor circuits.
- Custom units for non-catalogued capacities.
- Flexible refrigeration options.

Optional Features

- Modulating compressors.
- Low leak no-thru-metal casing.
- Modulating condenser re-heat coil.
- Corrosion resistant coating coils.
- Quiet condenser package.
- Low discharge temperatures.
- Sound dampening options.
- Galvaneal, 304 SS, 316 SS or aluminum casing.
- Walk in service vestibule.

The Company:

Since the time of our incorporation in 1966, Engineered Air has grown to become one of the largest, fully integrated manufacturer of custom heating, ventilating, air conditioning, refrigeration and heat recovery equipment in North America.

Over the years, Engineered Air has built a solid reputation for innovative designs and uncompromising quality. We have worked from the beginning to establish Engineered Air as a company uniquely different from our competitors. We listen to our customers and build quality equipment to meet their specific needs, all through our integrated Direct Sales Force, Design and Manufacturing facilities.

Engineered Air has a well established policy of continuing capital investment in people and technology. Continuous research and development and constant improvements in manufacturing procedures assure unsurpassed, reliability and service.
