

# HEATING, VENTILATING, AIR CONDITIONING, AIR QUALITY AND ENERGY RECOVERY PRODUCTS

Air Cooled Condensers  
Air Handling Units  
Airtex Radiant Ceiling Panel  
Air Washers  
Condensing Units  
Convectors  
Dehumidifiers  
Direct Fired Air Curtains  
Direct Fired Make-Up Air Heaters  
Energy Recovery Units  
Evaporative Coolers  
Fan Coil Units  
Finned Tube Radiation  
Fluid Coolers  
Heating, Cooling and/or Ventilating Units  
Heat Transfer Coils

Heresite Corrosion Protection  
Humidifiers  
Indirect Fired Make-up Air Heaters  
Indirect Fired HVAC Units  
Multizone Units (new & replacement)  
Packaged Air Conditioners  
Prefabricated Equipment Rooms  
QDT Heat Recovery Pipes  
Recovery Air - Energy Recovery Wheels  
Replacement Units  
TRAC "Family of Electronic Controls"  
Tri Med UVC and Odor Control Products  
TRP Air to Air Heat Exchangers  
Unit Heaters  
Unit Ventilators  
Water Chillers

If you have an idea - We'll manufacture it!

HEATING :: VENTILATING :: AIR CONDITIONING :: AIR QUALITY :: ENERGY RECOVERY

## The Product:

Engineered Air has experience manufacturing hazardous location equipment for industrial applications. We have the capability to build custom HVAC equipment to meet your design requirements, including certification for compliance of equipment classification, divisions and temperature code requirements.

Our experience and knowledge in manufacturing hazardous location and corrosive resistant equipment makes us a leader in the industry. We have provided equipment for mining, oil and gas, petro-chemical and refinery applications.

Our factory direct sales force, have the resources to ensure that the right components and material are selected to meet your application.

Contact an Engineered Air factory direct sales representative to help you with your industrial equipment selection today.

## Custom Features:

- CSA Certified Hazardous classification equipment
- Industrial sheathed electric heat coils
- CRN, IFB water and steam coils
- Energy Recovery coils
- Industrial filtration selections
- Corrosion resistant coils
- Stainless Steel casing
- Galvaneal casing with two part epoxy coating
- Skid resistant floors
- Continuously welded floors
- Stainless steel full drainable floors

## Custom Options:

- Full electrical control packages
- All bearings and motor out of airstream
- Spark resistant fans or housing
- Explosion proof conduit with seal ports
- Corrosive resistant construction
- Service vestibules
- Energy recovery packages
- Condenser re-heat coils

## The Company:

Since the time of our incorporation in 1966, Engineered Air has grown to become one of the largest, fully integrated manufacturers of custom heating, ventilating, air conditioning, refrigeration and heat recovery equipment in North America.

Over the years, Engineered Air has built a solid reputation for innovative designs and uncompromising quality. We have worked from the beginning to establish Engineered Air as a company uniquely different from our competitors. We listen to our customers and build quality equipment to meet their specific needs, all through our integrated Direct Sales Force, Design and Manufacturing facilities.

Engineered Air has a well established policy of continuing capital investment in people and technology. Continuous research development and constant improvements in manufacturing procedures assure unsurpassed quality, reliability and service.
