

HEATING, VENTILATING, AIR CONDITIONING, ODOR REMOVAL AND HEAT RECOVERY PRODUCTS

Odor Control Equipment
 Odor Control / Chemical Remover
 Air Cooled Condenser Units
 Air Handling Units
 Airtex Radiant Ceiling Panel
 Air Washers
 Dehumidifiers
 Gas Fired Air Curtains
 Gas Fired Make Up Air Heaters
 Evaporative Coolers
 Stainless Steel Baseboard HTG
 Fluid Coolers
 Energy Recovery Units
 Heat Transfer Coils
 Exhaust Systems

Heresite Corrosion Protection
 Humidifiers
 Steam or Electrical Coil Make Up Air Heaters
 Packaged Air Conditioners
 Prefabricated Equipment Rooms
 QDT Heat Recovery Pipes
 Recovery Air Heat Wheels
 Custom Replacement Units
 TRAC "Family of Electronic Controls"
 Tri Med UV Systems
 Aluminum Air to Air Heat Exchanger
 Horizontal and Vertical Unit Heaters
 Unit Ventilators
 Water Chillers
 Fan Coil Units

AIR MANAGEMENT EQUIPMENT FOR THE WASTEWATER INDUSTRY

EngA **ENGINEERED AIR**

If you have an idea - We'll manufacture it!

The Product:

MADE TO ORDER WASTEWATER EQUIPMENT:

Made to order is Engineered Air's unique ability to custom manufacture competitively priced air handling equipment. This approach provides innovative solutions for engineers and owners who deal with tough logistical requirements. Wastewater Industry knowledgeable sales engineers provide design assistance from the earliest phases of layout through to the project's completion.

Engineered Air's multiple technology approach to solving problems will bring the most cost effective make up air, ventilation air, odor control and energy recovery products to your organization.

The Features:

- Stainless Steel Construction up to 14 ga.
- Aluminum Blower Wheels
- Fintubular Electric Heat Coils
- Heresite Coated Heating & Cooling Coils
- Titanium Stainless Steel Gas Heat Exchangers
- Horizontal or Vertical Configurations
- Air Volumes for 500 to 100,000 cfm
- Flex Design for Retro Fit Applications
- ETL and CSA Listed
- Built to ISO 9002 Standards
- Gas Heat - Natural Gas or Propane
- Heresite Energy Recovery Coils

The Benefits:

- Long Lasting Equipment
- Trouble Free Operation
- Single Source Responsibility
- Site Specific Equipment
- Lower Operating Costs

The Company:

Since the time of our incorporation in 1966, Engineered Air has grown to become one of the largest, fully integrated manufacturers of custom heating, ventilating, air conditioning, refrigeration and heat recovery equipment in North America.

Over the years, Engineered Air has built a solid reputation for innovative designs and uncompromising quality. We have worked from the beginning to establish Engineered Air as a company uniquely different from our competitors. We listen to our customers and build quality equipment to meet their specific needs, all through our integrated Direct Sales Force, Design and Manufacturing facilities.

Engineered Air has a well established policy of continuing capital investment in talent and technology. Continuous research and development and constant improvements in manufacturing procedures assure unsurpassed quality, reliability and service.
